CAREER OBJECTIVE

Enthusiastic B.Tech CSE (AI/ML) student with hands-on experience in Python, data analysis, and AI-powered workflows, seeking a Training Engineer Internship where I can leverage my technical knowledge, strong communication skills, and passion for teaching to mentor engineering students in programming, problem-solving, and industry-relevant technologies.

EDUCATION

B.Tech, Computer Science & Engineering (AI/ML) 2024 – 2028
KIIT University, Bhubaneswar

Higher Secondary (Class XI & XII) — Science Stream 2022 – 2024
Techno India Group Public School, Siliguri

Secondary (Class I–X) Completed 2022
Don Bosco School, Siliguri

TECHNICAL SKILLS

- Programming Languages: Python, C
- Data & Analytics: MS Excel, Google Sheets, Tableau, Data Analysis & Visualization
- AI/ML Tools: IBM watsonx Orchestrate, NVIDIA AI Platforms, Generative AI frameworks
- Productivity & Presentation: PowerPoint, Email Communication, Documentation
- Core CS Concepts: Data Structures & Algorithms (DSA) — currently studying

PROFESSIONAL & COMMUNICATION SKILLS

- Strong verbal and written communication in English, Hindi, and Bengali
- Ability to explain complex technical concepts in simple, student-friendly language
- Presentation & public speaking skills with confidence in front of groups
- Time management, task prioritization, and meeting deadlines consistently
- Team coordination, student mentoring aptitude, and a collaborative mindset
- Adaptable, quick learner — comfortable with new tools and curricula

EXPERIENCE — PROJECTS & SIMULATIONS

IBM: AI Assistant Development with watsonx Orchestrate 2024

- Designed and tested AI-powered assistant workflows using IBM's enterprise AI platform.
- Gained practical knowledge of natural language processing, automation, and AI orchestration — directly applicable to teaching AI/ML topics to students.

NVIDIA Academy: AI & Generative AI Certification 2024

- Completed structured training on Generative AI, deep learning fundamentals, and GPU-accelerated computing.

- Equipped to teach foundational AI concepts including neural networks, LLMs, and real-world AI applications.

Deloitte & Tata: Business Simulation — Data Analysis & Visualization

2024

- Collaborated on business case simulations focusing on data-driven decision-making.
- Applied Tableau and Excel for data visualization — reinforcing ability to teach industry-standard analytics tools.

JPMorgan Chase & Co.: Price Data & Credit Risk Analysis Simulation

2024

- Analyzed financial datasets, identified risk patterns, and produced structured reports.
- Strengthened analytical thinking and Python-based data processing — skills directly relevant to programming training sessions.

CERTIFICATIONS & ACHIEVEMENTS

- IBM — AI Assistant with watsonx Orchestrate (Issued 2024)
- NVIDIA Academy — AI and Generative AI (Issued 2024)
- Deloitte Virtual Internship — Data Analytics & Forensic Technology
- Tata Group Virtual Internship — Data Visualization
- JPMorgan Chase & Co. Virtual Internship — Price Analysis & Credit Risk

WHY I AM A FIT FOR THIS ROLE

- Technically strong in Python, data analysis, and AI/ML — core skills required for the Training Engineer role.
- Certified across multiple industry platforms (IBM, NVIDIA, Deloitte, JPMorgan) — brings real-world context to student training.
- Trilingual (English, Hindi, Bengali) — able to communicate effectively with diverse student groups.
- Available for full internship duration; open to travel and relocation as required.
- Proactive, punctual, and professional — committed to curriculum delivery within timelines.

DECLARATION

I hereby declare that all information provided above is true and accurate to the best of my knowledge and belief.
